William Redman  
St Joseph County Sheriff  
401 W. Sample St.  
South Bend, Indiana 46601

Dear Sheriff Redman,

We members of the Great Council of the American National Union of The United States of America, after reading the St. Joseph County Public Health Order 1-2020, demand the arrest of Robert M. Einterz, Mark D. Fox, and Jennifer S. Parcell, of the St Joseph County Health Department, being non-elected officials.

We find this health order to be unlawful. Specifically, it is determined to be a violation of the Public Law 83-6374, as well part of a treasonous conspiracy to usher Americans into a totalitarian communist system, while directing an onslaught of psychological weapons against an unsuspecting American public. This health order contains infringements upon intangible and tangible private property rights. This health order violates the following Articles of the Universal Declaration of Human Rights: 3, 5, 13, 17, 20, 23.

OSHA states the wearing of masks restricts the volume of oxygen, creating health risks. Forcing the people of St. Joseph County to wear masks forces them to rebreathe their own germs and carbon dioxide. This is harmful to health, not beneficial to health. This health order is tantamount to attempted murder and genocide, both being the reliable byproducts of communism time and again. This Health Order constitutes a humiliating and degrading fraud of sinister intent, perpetrated against families, friends, and neighbors, which violates international law. Self Determination is an intrinsic value of American Culture. It must be exercised to be preserved for posterity.

Americans have noticed the absurd lengths to which health officials around the Country have gone to inflate Covid-19 numbers, struggling to justify the fraud, and bolster the perception of an emergency. Some even refer to the CDC as the Center for Disease and Control. If Health Departments were genuinely concerned with the safeguarding of health

and well-being, they would not stand by to allow the fluoridation of drinking water supplies. Several international studies to date have demonstrated that fluoride added to water is causing numerous health complications, including reduced IQ ratings among children. A Health Department that truly fulfilled its intended role, certainly would not allow the widespread vaccination of innocent children, who suffer irreversible health damage without any liability nor any ability to have redress of grievances. These acts are nothing short of war crimes and are a blatant attempt to deprive the inhabitants of their mental faculties and health. <https://www.brighteon.com/6beff434-482b-450d-a51d-d36812f1495c>

The people of St. Joseph County and millions of Americans will be justified to act in self-defense, to counter this recent attack upon Health and Freedom. Unsurpassed numbers of Americans are discovering unelected government office holders being vacant a written and published social compact agreement with the inhabitants, acting as organized criminals that are providing aid and assistance to violent revolutionaries, complicit in the attempted overthrow of the States of the Union.

We believe the Sheriff answers to the people, not to the County Board of Supervisors, nor the Mayor, not even the Governor. The Sheriff is accountable to the people and only the people. Officers who claim to have the obligation of upholding public safety, must, along with the military come back into honor by arresting the long list of treasonous conspirators thereby upholding the inhabitants intangible right to their private property. Let it be known far and wide. This demand is made in accordance with the Law of Nations.

Best regards,

The Great Council for the American National Union of The United States of America
