### *American National Union of The United States of America*

#### **INTRODUCTION:**

The American National Union of 1774 (hereinafter: "ANU") brought forward into the present time from the original Union of 1774.

#### **DESTRUCTION OF THE UNITED STATES**

The Congress of the United States under the constitution of the United States was destroyed back in 1933 when gold and silver was outlawed.

We cannot find a U.S. constitution anywhere in the world to justify the existence of the name: "U.S. congress."

#### **JURISDICTION OF THE ANU:**

The jurisdiction of the ANU is the original States of the Union known as the State of Florida, or the State of Georgia etc... Any State described as a "state" was defined by the District of Columbia in 1864. There was no chain of title to justify the re-defining of a state and place it into an existing State unless the United States was at war against the States of the Union which is not clear in the history books of the civil war.

#### **THE U.S. DOLLAR IS FOREIGN TO THE UNITED STATES**

The U.S. Dollar is not in gold or silver and therefore is considered foreign and not recognized to the constitution of the United States and the State constitutions. The internal revenue service has 9 different post office boxes with no owner(s) assigned to them and that is where all of the revenue goes. None of the taxation is paid toward the principal of the national debt.

Since the federal reserve is a privately owned bank and cannot be audited, the legality of the revenue is at question and therefore the authority to tax comes into question. The issue of taxation was never in the federal reserve act.

#### **THERE IS NO SOCIETY**

The whole system is leveraged against the inhabitants. There are no governments, there are no societies, and until now there were no States because there were no social compacts.

#### **Evidence:**

**State of Florida:** <https://fall.fsulawrc.com/crc/conhist/1838con.html>

Section 1. That all freemen, when they form a social compact, are equal; and have certain inherent and inalienable rights, among which are those of enjoying and defending life and liberty; of acquiring, possessing, and protecting property and reputation; and of pursuing their own happiness.

### State of Mississippi

**Section 1.** That all freemen, when they form a social compact, are equal in rights, and that no man or set of men, are entitled to exclusive, separate, public emoluments or privileges, from the community, but in consideration of public services.

And these other States have the same wording in them:

### REBUILDING THE COUNTRY

The ANU along with the Government of The United States of America is rebuilding the country from the social compact up all done in accordance with the Law of Nations which came from the Bible.

All can fight this effort AND be considered traitors to your country or help.

Brief on the Current conditions of the States of the Union:

1: As stated before: The contract by and between the United States and the United States of America has been broken with the outlawing of gold and silver.

2: The Attorneys came in under the 1947 Bar Treaty and attacked the Judicial Department of every State within the original Union and currently amend the constitutions at will. (Capital Crime under the Law of Nations) (All associations are under the command of the city of London through the international bar association).

3: The Attorney's confiscated the Grand Juries from the people and created a title of nobility for their own.

4: 1976-Declaration of Interdependence for full communism.

5: National Registry Act of 1982 for full communism.

The tax revenue is funding communism because the local treasuries, State Treasuries and the treasury of the United States are not receiving those funds because those treasuries do not recognize the currency.

### COURTS CANNOT FIX ANYTHING

The ANU is not interested in flinging accusations, the problems are too big to try to solve with prosecutions.

The ANU supports the Police and their funding, we are not Black Lives Matter or any other communist organization. Enough has been destroyed.

### NATIONAL MONEY

The ANU has access to the original National money known as the Continental Dollar. It is debt free,

interest free and would lower all taxes considerably. Funding is debt free and the counties are not forced to stand in cheese lines waiting for mercy funding from corrupt politicians.

First and foremost: The ANU members want their roads back and are tired of being taxed by foreigners that are not legally seated.

The ANU office holders are obligated to facilitate the desires of its members.

In the past, there were two separate registries within the States: One for private/personal property and one for Public Property.

### REMOVING SLAVERY

The people want their private property rights and their personal property rights back.

The ANU is asking that the States open a personal property registry for automobiles to start wherein they enter the registry their automobile to qualify for Responsible Party Doctrine and they receive a tag for less than 10 dollars for the life of the automobile. These automobiles are used for the necessities of life and not used for political attacks against inhabitants or foreclosure attacks or any other political purpose. The members simply do not trust anyone that purports to be holding public office at this time without an Article 6 oath Title 4 Section 101.

The ANU rules of the road are more strict than each state rules wherein this is not about right to travel; it is about correcting the country by giving the basic rights back to the inhabitants to start a new social compact and therefore a real society:

The Government of The United States of America and the ANU was created to re-establish State governments and the United States once it falls. Since that has already happened in 1933 with the communist takeover, it is time to reach out to find likeminded people that wish not to see their country completely fall away wherein their own existence is completely erased.

The ANU will wait for two weeks to see if there will be any cooperation, if no response, the ANU will start its own private and personal property registry within The United States of America and the original States recording section for the purpose of recording the existence of private and personal property. Taking personal property because of non-payment of a tax is nothing more than slavery in all of its forms.

We at the ANU are looking forward to a positive response.
